GLS Overflow™

Legal Team Capacity That Transforms

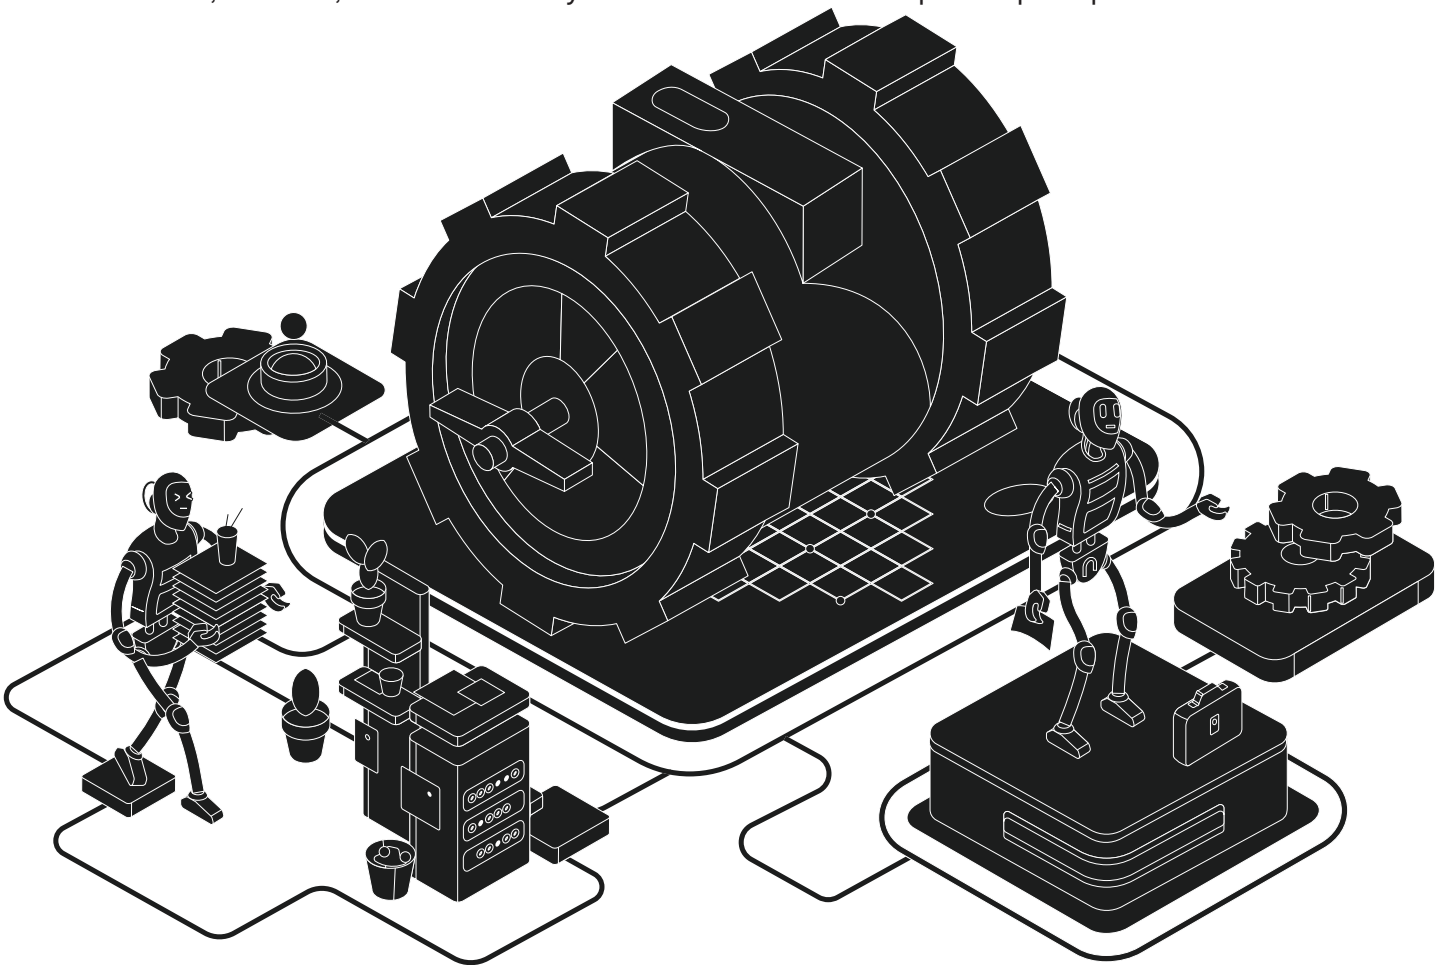

GIVE YOUR LEGAL TEAM A BOOST

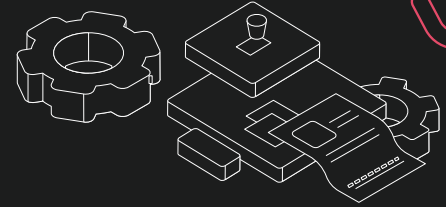

While the GLS group places most of its focus on innovation, sometimes our clients' most pressing need is a plug'n'play, managed legal support capacity solution. GLS Overflow™ does exactly that, offering access to a broad legal skill set to supplement your legal team's day-to-day needs.

Whether you need strategic leadership or just a safe pair of extra hands, GLS Overflow™ is immediate, scalable, and available to you at short notice at exceptional price points.

DYNAMIC, *BY DESIGN*

By reflecting the demands of the in-house environment, GLS Overflow™ has become our best-selling in-house legal team capacity solution. Our lawyers have the knowledge and experience to provide commercially savvy counsel and high impact support for all scenarios. With a strong in-house focus specialising in practical, commercial law, this is a dynamic, flexible service that adapts to the needs of your team.

THE STAFFING PROBLEMS *WE SOLVE*

ACCESSING SENIORITY

Given the “managed” nature of the GLS Overflow™ solution, it has also rapidly become a permanent resourcing feature for a growing number of our client legal teams.

HOW DOES IT *WORK?*

Simply click [here](#) and review the specific benefits of each GLS Overflow™ support package. Then select a capacity plan that suits you. Exceptional price points are achieved by pre-purchasing blocks of capacity that give you 24/7 access to a diverse in-house support resource.

For Silver plans and above, we will assign a Relationship Manager (RM) and diagnose your group legal positions to ensure calibrated support. This allows us to provide a truly “managed” capacity solution including reporting transparency and pro-active efficiency recommendations.

To take advantage of your flexible hourly packages, you can submit a support request to us at any time. Once you are signed in, use our pro-forma guide quality instructions, submit your instruction, and you’re good to go.

If you’ve overcommitted, don’t worry. Any balance on your account can be used at our [Legal Operations Centre](#) (LOC) to tap into 800+ legal products and tools created to enhance your team’s performance.

THE BETTER *SOLUTION*

No legal team has all the resources it needs all the time, because those needs are always changing and no team has infinite resources. We work to enhance the long-term efficiency of your team by giving you access to the lawyers you need, when you need them, along with additional support resources for most capacity tiers.

For too long now the workload of in-house legal teams has grown unnecessarily large because it simply takes far too long to engage traditional support resources – or because the assignment was considered too small to brief out externally. GLS Overflow™ provides instant support for any project, no matter the size nor the deadline, and delivered by a team that increasingly knows exactly how you like to work.

Think of GLS Overflow™ as the entire reserve bench of a world beating sports team. These super-subs are high impact individuals with particular skills that can be called upon to have game-changing impact under specific circumstances.

Collectively, our lawyer pool covers far more industries, practice areas and years of experience than any one lawyer you can hire. And they will be supported by the entire resource pool of the GLS Group. They are dynamic, resourceful and ready to help elevate your team.

INNOVATE, *DON'T PROCRASTINATE*

A successful in-house legal team needs both continuity and innovation. So let your in-house team remain stable, whilst GLS Overflow™ contributes new efficiency solutions and incredible features:

UNBELIEVABLY AFFORDABLE – *AND SO MUCH MORE*

Firstly, our rates are exceptional and prove that from the right legal service provider platform – accessing world class talent can be substantially more affordable than traditional market providers.

Any doubts? Well, traditional law firms are charging over US\$400ph for newly qualified lawyers and paying them more than \$200,000 per year. They would go broke charging you at our rates!

But GLS is not a law firm (unless you need us to be) – we are an in-house legal team *and* dedicated solutions provider. So, we offer far more than just lawyers – which means you can access lawyers through an unbelievable price and value proposition.

Take a look at our capacity plans below to see not only great rates, but additional value:

GLS OVERFLOW™	FEES (EXCL. VAT)	STANDARD OVERFLOW RATE (P/H)	RM MANAGED	TRAINING INCLUSIONS	LOC CREDIT
1000hrs	US\$199,000	US\$199	Y	5 sessions	US\$15,000
400hrs	US\$91,600	US\$229	Y	2 sessions	US\$4,500
100hrs	US\$24,900	US\$249	Y	1 session	US\$650
50hrs	US\$13,450	US\$269	Y	N	N
10hrs	US\$2,990	US\$299	N	N	N

GLS Relationship Manager: our dedicated RM will assess your workflows and identify potential working practice efficiencies, provide reporting transparency and help you use your resources.

Team Training On Us: we will help you with your legal team training burden. Depending on your capacity tier – you will be free to access any of the world class training modules available on the Legal Operations Centre.

Legal Operations Centre Credit: for qualifying tiers, we give you additional credit to purchase digital solutions from the LOC – e.g. templates, policies, checklists, training etc. You can, on us, experience the exponential productivity outcomes of great lawyers with great in-house tools.

So, what's there not to like? At a price point the same (or even better) than the fully loaded cost of your own team members by reference to actual productivity hours – GLS Overflow™ delivers the support you need, when you need it.
